

# **Federal Procurement Data System**

## **Federal Procurement Report**

**Fiscal Year 1998 through  
Fourth Quarter**

**(October 1, 1997 through  
September 30, 1998)**

Prepared by  
U.S. General Services Administration  
Federal Data Systems Division  
Federal Procurement Data Center  
Executive Agent for  
Office of Management and Budget  
Office of Federal Procurement Policy

## FOREWORD

Public Law 93-400 requires that the Office of Management and Budget (OMB), Office of Federal Procurement Policy (OFPP), "...establish a system for collecting, developing, and disseminating the procurement data which takes into account the needs of the Congress, the executive branch, and the public sector." Under the guidance of OFPP, design of the Federal Procurement Data System was completed in early 1978 and data collection began October 1, 1978. The Federal Procurement Data Center was established to operate the system. The Center provides a central point to respond to the requirements of the legislative, executive, and judicial branches of the Government as well as the private sector.

The Federal Procurement Data Center produces reports which examine various aspects and impacts of the Federal acquisition process. The data can be used for geographical analysis, market analysis, and analysis of the impact of congressional and presidential initiatives in socio-economic areas such as small business. The data is also a reliable basis for measuring and assessing the impact of Federal acquisition policy and management improvement.

Basic acquisition data will be published each fiscal year in the Federal Procurement Report. Special reports to meet specific data requirements can be produced on demand. Data on each procurement action of fiscal year 1998 is available on CD-ROM.

This report was prepared in the Federal Procurement Data Center by Grafton T. Biglow, Chief of the Customer Liaison Branch. Assistance provided by Annie Andersen and computer processing operations were performed by Pathina Musgrove.

Further information regarding the Federal Procurement Data System reports or capabilities can be obtained from the Federal Procurement Data Center, U. S. General Services Administration, 7th and D Streets, S.W., Room 5652, Washington, D.C. 20407 or by calling area code (202) 401-1529.

Periods

## HIGHLIGHTS

The FPDS Federal Procurement Report is published annually, and contains "snapshot" statistics on the procurement activities of over 60 agencies. The figures in this report are only as accurate, timely and complete as the data provided by the reporting agencies to the FPDC.

All dollars are in thousands except for the dollars in the Credit Card Report and the per capita procurement displayed at the top of each State Snapshot. Due to rounding, dollars on the charts may not equal the TOTAL DOLLAR figure, and percentages may not total 100 percent.

The FPDS Federal Procurement Report is current as of the date of issuance and all older reports are obsolete, therefore, the FPDC will not maintain prior issuances for either distribution or for reference.

The "National Transportation Safety Board" did not report in fiscal year 1998. The figure in the agency snapshot for the "Department of Labor" were adjusted after this report was generated. These additional dollars are not depicted in any other parts of the report.

The Report on Annual Procurement Preference Goaling Achievements contains fiscal year 1998 dollars that were processed in March of 1999. The figures in the "Goaling" report for the Department of Energy contain subcontracting dollars as reported by "Management and Operating", "Environmental Restoration Management Companies", and "Management and Integration" prime contractors.

In addition to this report, the Federal Procurement Data Center produces the Competitor's Edge which is a free booklet describing the special advantages of the FPDS Special Reports. To obtain the Competitor's Edge, call the FPDC at (202) 401-1529 or write:

Federal Procurement Data Center
